WASHINGTON, D.C. 20549

FORM 10-Q

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Quarterly Period ended September 30, 2020
or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For transition period from to
Commission File Number 0-51331

BANKFINANCIAL CORPORATION

(Exact Name of Registrant as Specified in Charter)

Maryland	**75-3199276**
(State or Other Jurisdiction of Incorporation)	**(I.R.S. Employer Identification No.)**

60 North Frontage Road, Burr Ridge, Illinois 60527
(Address of Principal Executive Offices)
Registrant's telephone number, including area code: (800) 894-6900
Not Applicable
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value $0.01 per share	BFIN	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	☐	Accelerated filer	☒
Non-accelerated filer	☐	Smaller reporting company	☒
		Emerging growth company	☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒.

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date. At October 26, 2020 there were 14,780,628 shares of Common Stock, $0.01 par value, outstanding.

BANKFINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: BankFinancial Corporation, a Maryland corporation headquartered in Burr Ridge, Illinois, is the owner of all of the issued and outstanding capital stock of BankFinancial, NA (the "Bank"). The interim unaudited consolidated financial statements include the accounts and transactions of BankFinancial Corporation, the Bank, and the Bank's wholly-owned subsidiaries, Financial Assurance Services, Inc. and BFIN Asset Recovery Company, LLC (collectively, "the Company"), and reflect all normal and recurring adjustments that are, in the opinion of management, considered necessary for a fair presentation of the financial condition and results of operations for the periods presented. Such adjustments are the only adjustments reflected in the accompanying financial statements. All significant intercompany accounts and transactions have been eliminated. The results of operations for the three and nine month periods ended September 30, 2020 are not necessarily indicative of the results of operations that may be expected for the year ending December 31, 2020 or for any other period.

Certain information and note disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP") have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC").

Use of Estimates: The preparation of the consolidated financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Although these estimates and assumptions are based on the best available information, actual information, actual results could differ from those estimates.

COVID-19: The Company has evaluated subsequent events for potential recognition and/or disclosure through the date the unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q were issued. On March 11, 2020, the World Health Organization declared the outbreak of a novel coronavirus ("COVID-19") as a global pandemic, which continues to spread throughout the United States and around the world. The declaration of a global pandemic indicates that almost all public commerce and related business activities must be, to varying degrees, curtailed with the goal of decreasing the rate of new infections. The outbreak of COVID-19 has adversely impacted, and could further adversely impact, a broad range of industries in which the Company's customers operate and impair their ability to fulfill their financial obligations to the Company. On March 3, 2020, the Federal Open Market Committee reduced the target federal funds rate by 50 basis points to 1.00% to 1.25%. This rate was further reduced to a target range of 0% to 0.25% on March 16, 2020. These reductions in interest rates and other effects of the COVID-19 outbreak may adversely affect the Company's financial condition and results of operations. As a result of the spread of the COVID-19 coronavirus, economic uncertainties have arisen which are likely to negatively impact net interest income and noninterest income. Other financial impacts could occur though such potential impact is unknown at this time.

Reclassifications: Certain reclassifications have been made in the prior period's financial statements to conform them to the current period's presentation.

These unaudited consolidated financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2019, as filed with the Securities and Exchange Commission.

Newly Issued Not Yet Effective Accounting Standards

In June 2016, the FASB issued ASU No. 2016-13, "Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("ASU 2016-13"). These amendments require the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Financial institutions and other organizations will now use forward-looking information to better inform their credit loss estimates. Many of the loss estimation techniques applied today will still be permitted, although the inputs to those techniques will change to reflect the full amount of expected credit losses. In addition, the ASU amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. For SEC filers who are smaller reporting companies, such as the Company, ASU 2016-13 is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2022.

NOTE 2 - EARNINGS PER SHARE

Amounts reported in earnings per share reflect earnings available to common stockholders for the period divided by the weighted average number of shares of common stock outstanding during the period.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2020	**2019**	**2020**	**2019**
Net income available to common stockholders	$ 1,948	$ 3,924	$ 6,718	$ 8,282
Basic and diluted weighted average common shares outstanding	14,842,150	15,373,964	15,008,271	15,679,927
Basic and diluted earnings per common share	$ 0.13	$ 0.26	$ 0.45	$ 0.53

(Table amounts in thousands, except share and per share data)

NOTE 3 - SECURITIES

The fair value of securities and the related gross unrealized gains and losses recognized in accumulated other comprehensive income is as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-Sale Securities				
September 30, 2020				
Certificates of deposit	$ 32,724	$ —	$ —	$ 32,724
Municipal securities	503	9	—	512
Mortgage-backed securities - residential	6,124	305	—	6,429
Collateralized mortgage obligations - residential	2,381	4	(2)	2,383
	$ 41,732	$ 318	$ (2)	$ 42,048
December 31, 2019				
Certificates of deposit	$ 48,666	$ —	$ —	$ 48,666
Municipal securities	505	8	—	513
Mortgage-backed securities - residential	7,727	310	—	8,037
Collateralized mortgage obligations - residential	2,986	4	(13)	2,977
	$ 59,884	$ 322	$ (13)	$ 60,193

The mortgage-backed securities and collateralized mortgage obligations reflected in the preceding table were issued by U.S. government-sponsored entities or agencies, Freddie Mac, Fannie Mae and Ginnie Mae, and are obligations which the government has affirmed its commitment to support.

The amortized cost and fair values of securities by contractual maturity are shown below. Securities not due at a single maturity date are shown separately. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	September 30, 2020	
	Amortized Cost	Fair Value
Due in one year or less	$ 32,576	$ 32,577
Due after one year through five years	651	659
	33,227	33,236
Mortgage-backed securities - residential	6,124	6,429
Collateralized mortgage obligations - residential	2,381	2,383
	$ 41,732	$ 42,048

Investment securities available-for-sale with carrying values of $1.2 million and $2.0 million at September 30, 2020 and December 31, 2019, respectively, were pledged as collateral on customer repurchase agreements and for other purposes as required or permitted by law.

BANKFINANCIAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Table amounts in thousands, except share and per share data)

NOTE 3 - SECURITIES (continued)

Sales of equity securities were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2020	2019	2020	2019
Proceeds	$ —	$ —	$ —	$ 3,722
Gross gains	—	—	—	295
Gross losses	—	—	—	—

Securities with unrealized losses not recognized in income are as follows:

	Less than 12 Months			12 Months or More			Total		
	Count	Fair Value	Unrealized Loss	Count	Fair Value	Unrealized Loss	Count	Fair Value	Unrealized Loss
September 30, 2020									
Collateralized mortgage obligations - residential	—	$ —	$ —	3	$ 1,695	$ (2)	3	$ 1,695	$ (2)
December 31, 2019									
Collateralized mortgage obligations - residential	3	$ 1,566	$ (10)	1	$ 937	$ (3)	4	$ 2,503	$ (13)

The Company evaluates marketable investment securities with significant declines in fair value on a quarterly basis to determine whether they should be considered other-than-temporarily impaired under current accounting guidance, which generally provides that if a marketable security is in an unrealized loss position, whether due to general market conditions or industry or issuer-specific factors, the holder of the securities must assess whether the impairment is other-than-temporary.

Certain collateralized mortgage obligations that the Company holds in its investment portfolio were in an unrealized loss position at September 30, 2020, but the unrealized losses were not considered significant under the Company's impairment testing methodology. In addition, the Company does not intend to sell these securities, and it is likely that the Company will not be required to sell these securities before their anticipated recovery occurs.

The Bank, as a member of Visa USA, received 51,404 unrestricted shares of Visa, Inc. Class B common stock in connection with Visa, Inc.'s initial public offering in 2007 and a related retroactive responsibility plan. The retroactive responsibility plan obligates all former Visa USA members to indemnify Visa USA, in proportion to their equity interests in Visa USA, for certain litigation losses and expenses, including settlement expenses, for the lawsuits covered by the retrospective responsibility plan. Due to the restrictions that the retrospective responsibility plan imposes on the Company's Visa, Inc. Class B shares, the Company did not record the Class B shares as an asset.

The Bank sold 25,702 shares of Visa Class B common stock in the fourth quarter of 2018 and the remaining 25,702 shares of Visa Class B common stock in the first quarter of 2019 and recorded an aggregate gain of $295,000.

Impaired loans

The following tables present loans individually evaluated for impairment by class of loans:

					Three Months Ended September 30, 2020		Nine Months Ended September 30, 2020	
	Loan Balance	Recorded Investment	Partial Charge off	Allowance for Loan Losses Allocated	Average Investment in Impaired Loans	Interest Income Recognized	Average Investment in Impaired Loans	Interest Income Recognized
September 30, 2020								
With no related allowance recorded:								
One-to-four family residential real estate	$ 2,092	$ 1,746	$ 358	$ —	$ 1,760	$ 10	$ 1,798	$ 34
Multi-family mortgage - Illinois	596	596	—	—	600	8	608	26
Nonresidential real estate	1,582	1,582	—	—	791	—	316	32
Commercial leases - other	155	155	—	—	478	27	259	27
	4,425	4,079	358	—	3,629	45	2,981	119
With a related allowance recorded - nonresidential	280	288	—	20	288	—	288	—
	$ 4,705	$ 4,367	$ 358	$ 20	$ 3,917	$ 45	$ 3,269	$ 119

					Year ended December 31, 2019	
	Loan Balance	Recorded Investment	Partial Charge-off	Allowance for Loan Losses Allocated	Average Investment in Impaired Loans	Interest Income Recognized
December 31, 2019						
With no related allowance recorded:						
One-to-four family residential real estate	$ 2,168	$ 1,835	$ 339	$ —	$ 2,208	$ 51
Multi-family mortgage - Illinois	620	620	—	—	637	37
Nonresidential real estate	280	288	—	—	589	2
	$ 3,068	$ 2,743	$ 339	$ —	$ 3,434	$ 90

Nonaccrual Loans

The following tables present the recorded investment in nonaccrual and loans 90 days or more past due still on accrual by class of loans:

	Loan Balance	Recorded Investment	Loans Past Due Over 90 Days, Still Accruing
September 30, 2020			
One-to-four family residential real estate	$ 485	$ 465	$ —
Nonresidential real estate	1,863	1,870	—
	$ 2,348	$ 2,335	$ —
December 31, 2019			
One-to-four family residential real estate	$ 598	$ 512	$ —
Nonresidential real estate	280	288	—
Investment-rated commercial leases	47	—	47
	$ 925	$ 800	$ 47

Nonaccrual loans and impaired loans are defined differently. Some loans may be included in both categories, and some loans may only be included in one category. Nonaccrual loans include both smaller balance homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans.

The Company's reserve for uncollected loan interest was $135,000 and $81,000 at September 30, 2020 and December 31, 2019, respectively. When a loan is on nonaccrual status and the ultimate collectability of the total principal of an impaired loan is in doubt, all payments are applied to principal under the cost recovery method. Alternatively, when a loan is on nonaccrual status but there is doubt concerning only the ultimate collectability of interest, contractual interest is credited to interest income only when received, under the cash basis method pursuant to the provisions of FASB ASC 310–10, as applicable. In all cases, the average balances are calculated based on the month–end balances of the financing receivables within the period reported pursuant to the provisions of FASB ASC 310–10, as applicable.

NOTE 4 - LOANS RECEIVABLE (continued)

U.S. Small Business Administration Paycheck Protection Program ("PPP")

In response to the COVID-19 pandemic, the Coronavirus Aid, Relief and Economic Security Act ("CARES Act") was passed by Congress and signed into law on March 27, 2020. The CARES Act established the Paycheck Protection Program loan, designed to provide a direct incentive for small businesses to keep their workers on the payroll. Under the most recently published guidance, the U.S. Small Business Administration ("SBA") will forgive PPP loans if all employee retention criteria are met, and the funds are used for eligible expenses. For the nine months ended September 30, 2020, we allocated approximately $11 million to the PPP based on the expected 100% guaranty of the SBA.

The following table presents the PPP activity:

	Number of loans	Originated	Balance
For the Nine Months Ended September 30, 2020			
Paycheck protection program loan originations	315	$ 11,160	
September 30, 2020			
Paycheck protection program loans	310		$ 11,042

COVID-19 Loan Forbearance Programs

Section 4013 of the CARES Act provides that a qualified loan modification is exempt by law from classification as a Troubled Debt Restructuring ("TDR") pursuant to US GAAP. In addition, the Revised Interagency Statement on Loan Modifications and Reporting for Financial Institutions Working With Customers Affected by the Coronavirus ("OCC Bulletin 2020-50") provides more limited circumstances in which a loan modification is not subject to classification as a TDR and also defined the circumstances where the borrower's loan is reported as current on loan payments. Pursuant to these new capabilities, we developed several loan forbearance programs to assist borrowers with managing cash flows disrupted due to COVID-19.

Our Apartment and Commercial Real Estate COVID-19 Qualified Limited Forbearance Agreement permitted borrowers who qualified under Section 4013 of the CARES Act to make an election to pay scheduled interest and escrow payments (if applicable) for a four-month period beginning in April 2020, and pay all deferred principal payments by December 2020.

Our Small Investment Property COVID-19 Qualified Limited Forbearance Agreement permitted borrowers with loan balances under $750,000 who qualified under Section 4013 of the CARES Act to make an election to pay scheduled interest and escrow payments (if applicable) for a four-month period beginning in April 2020, and pay all deferred principal payments by December 2020. In addition, the borrower could elect to defer the May 2020 loan payment entirely, with all deferred interest amounts due by December 2020 and all deferred principal amounts due by June 30, 2021.

CARES Act Section 4013 and OCC Bulletin 2020-35 forbearance agreements are available to qualified commercial loan and commercial finance borrowers, and to commercial equipment lessees.

For residential mortgage and consumer loans, relief under CARES Act Section 4013 or OCC Bulletin 2020-35 forbearance agreements are available to qualified borrowers with terms consistent with secondary residential mortgage market standards established by Fannie Mae.

The following table summarizes the remaining loan forbearance modifications at September 30, 2020:

	Number of loans	Principal Balance	Remaining Amounts Deferred
Small Investment Property COVID-19 Qualified Limited Forbearance Agreement			
Multi-family mortgage	15	$ 4,511	$ 46
Nonresidential real estate	15	5,871	93
Apartment and Commercial Real Estate COVID-19 Qualified Limited Forbearance Agreement			
Multi-family mortgage	53	42,663	185
Nonresidential real estate	28	31,861	273
Commercial leases (1)	25	9,211	—
One-to-four family residential real estate	10	1,422	11
	146	$ 95,539	$ 608

(1) Commercial lease deferrals have been reamortized to maturity.

Troubled Debt Restructurings

The Company evaluates loan extensions or modifications not qualified under Section 4013 of the CARES Act or under OCC Bulletin 2020-35 in accordance with FASB ASC 340-10 with respect to the classification of the loan as a TDR.

Under ASC 340-10, if the Company grants a loan extension or modification to a borrower experiencing financial difficulties for other than an insignificant period of time that includes a below–market interest rate, principal forgiveness, payment forbearance or other concession intended to minimize the economic loss to the Company, the loan extension or loan modification is classified as a TDR. In cases where borrowers are granted new terms that provide for a reduction of either interest or principal then due and payable, management measures any impairment on the restructured loan in the same manner as for impaired loans as noted above.

(Table amounts in thousands, except share and per share data)

NOTE 4 - LOANS RECEIVABLE (continued)

The Company had no TDRs at September 30, 2020 and December 31, 2019. During the nine months ended September 30, 2020 and 2019, there were no loans modified and classified as TDRs. During the three and nine months ended September 30, 2020 and 2019, there were no TDR loans that subsequently defaulted within twelve months of their modification.

A loan is considered to be in payment default once it is 90 days contractually past due under the modified terms.

To determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting policy.

Credit Quality Indicators

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt, including current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans based on credit risk. This analysis includes non-homogeneous loans, such as commercial and commercial real estate loans. This analysis is performed on a monthly basis. The Company uses the following definitions for risk ratings:

> **Special Mention.** A Special Mention asset has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the institution's credit position at some future date. Special Mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification.
>
> **Substandard.** Loans categorized as Substandard continue to accrue interest, but exhibit a well-defined weakness or weaknesses that may jeopardize the liquidation of the debt. The loans continue to accrue interest because they are well secured and collection of principal and interest is expected within a reasonable time. The risk rating guidance published by the Office of the Comptroller of the Currency clarifies that a loan with a well-defined weakness does not have to present a probability of default for the loan to be rated Substandard, and that an individual loan's loss potential does not have to be distinct for the loan to be rated Substandard.
>
> **Nonaccrual.** An asset classified Nonaccrual has all the weaknesses inherent in one classified Substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered "Pass" rated loans.

Based on the most recent analysis performed, the risk categories of loans by class of loans are as follows:

	Pass	Special Mention	Substandard	Nonaccrual	Total
September 30, 2020					
One-to-four family residential real estate loans:					
Owner occupied	$ 35,165	$ -	$ 484	$ 465	$ 36,114
Non-owner occupied	8,637	28	33	—	8,698

	$ 1,163,028	$ 9,847	$ 1,053	$ 800	$ 1,174,728

NOTE 5 - OTHER REAL ESTATE OWNED

Real estate that is acquired through foreclosure or a deed in lieu of foreclosure is classified as other real estate owned ("OREO") until it is sold. When real estate is acquired through foreclosure or by deed in lieu of foreclosure, it is recorded at its fair value, less the estimated costs of disposal. If the fair value of the property is less than the loan balance, the difference is charged against the allowance for loan losses.

	September 30, 2020			December 31, 2019		
	Balance	Valuation Allowance	Net OREO Balance	Balance	Valuation Allowance	Net OREO Balance
One–to–four family residential	$ 110	$ -	$ 110	$ 186	$ —	$ 186

The following represents the roll forward of OREO and the composition of OREO properties:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2020	2019	2020	2019
Beginning balance	$ 143	$ 497	$ 186	$ 1,226
New foreclosed properties	—	30	33	76
Valuation adjustments	—	(17)	—	(38)
Sales and other reductions	(33)	(241)	(109)	(995)
Ending balance	$ 110	$ 269	$ 110	$ 269

Activity in the valuation allowance is as follows:

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2020	2019	2020	2019
Beginning balance	$ —	$ 21	$ —	$ 23
Additions charged to expense	—	17	—	38
Reductions from sales of OREO	—	—	—	(23)
Ending balance	$ —	$ 38	$ —	$ 38

At September 30, 2020 and December 31, 2019, the balance of OREO included no foreclosed residential real estate properties recorded as a result of obtaining physical possession of the property without title. At September 30, 2020 and December 31, 2019, the recorded investment of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings were in process was $180,000 and $237,000, respectively.

(Table amounts in thousands, except share and per share data)

NOTE 6 - LEASES

The Company enters into operating leases in the normal course of business primarily for several of its branch and corporate locations. Leases (Topic 842) establishes a right of use model that requires a lessee to record a right of use ("ROU") asset and a lease liability for all leases with terms longer than 12 months. Currently the Company is obligated under four non-cancellable operating lease agreements for three branch properties and its corporate office. The leases have varying terms, the longest of which will end in 2032. The Company's lease agreements include options to renew at the Company's discretion. The extensions are not reasonably certain to be exercised; therefore, they were not considered in the calculation of the ROU asset and lease liability. The Company has also elected not to recognize leases with original lease terms of 12 months or less (short-term leases) on the Company's Statement of Financial Condition.

The following table represents the classification of the Company's right of use and lease liabilities:

	Statement of Financial Condition Location	September 30, 2020	December 31, 2019
Operating Lease Right of Use Asset:			
Gross carrying amount		$ 6,694	$ —
New lease obligation		111	6,694
Accumulated amortization		(1,508)	(848)
Net carrying value	Other assets	$ 5,297	$ 5,846
Operating Lease Liabilities:			
Right of use lease obligations	Other liabilities	$ 5,297	$ 5,846

Amortization expense was $221,000 and $212,000 for the three months ended September 30, 2020 and 2019, respectively, and $660,000 and $636,000 for the nine months ended September 30, 2020 and 2019. At September 30, 2020, the weighted-average remaining lease term for the operating leases was 8.4 years and the weighted-average discount rate used in the measurement of operating lease liabilities was 3.13%. The Company utilized the FHLB fixed rate advance rate for the term most closely aligning with the remaining lease term at inception.

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
Lease cost:	2020	2019	2020	2019
Operating lease cost	$ 221	$ 212	$ 660	$ 636
Short-term lease cost	42	26	113	86
Sublease income	(19)	(17)	(56)	(32)
Total lease cost	$ 244	$ 221	$ 717	$ 690
Other information:				
Cash paid for amounts included in the measurement of lease liabilities:				
Operating cash flows from operating leases	$ 238	$ 225	$ 709	$ 674

Future minimum payments under non-cancellable operating leases with terms longer than 12 months, are as follows at September 30, 2020:

Twelve months ended September 30,	
2021	$ 957
2022	991
2023	1,002
2024	582
2025	505
Thereafter	2,344
Total future minimum operating lease payments	6,381
Amounts representing interest	(1,084)
Present value of net future minimum operating lease payments	$ 5,297

NOTE 7 - BORROWINGS

Advances from the FHLB were as follows:

	September 30, 2020		December 31, 2019	
	Contractual Rate	Amount	Contractual Rate	Amount
Fixed-rate advance from FHLB, due within 1 year	—%	$ 4,000	—%	$ —

Securities sold under agreements to repurchase, which are included with borrowings on the consolidated balance sheet, are shown below.

	Overnight and Continuous	Up to 30 days	30 - 90 days	Greater Than 90 days	Total
December 31, 2019					
Repurchase agreements and repurchase-to-maturity transactions	$ 61	$ —	$ —	$ —	$ 61
Gross amount of recognized liabilities for repurchase agreements in Consolidated Statements of Financial Condition					$ 61

There were no repurchase agreements and repurchase-to-maturity transactions at September 30, 2020.

Securities sold under agreements to repurchase were secured by a mortgage-backed security with a carrying amount of $2.0 million at December 31, 2019, As the security's value fluctuates due to market conditions, the Company has no control over the market value. The Company is obligated to promptly transfer additional securities if the market value of the securities falls below the repurchase price, per the agreement.

On April 1, 2020, the Company established a $5.0 million unsecured line of credit with a correspondent bank. Interest is payable at a rate of Prime rate minus 0.75%. The line of credit will mature on April 1, 2021. The line of credit had no outstanding balance at September 30, 2020.

NOTE 8 – FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

- Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Significant unobservable inputs that reflect a company’s own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Securities: The fair values of debt securities are generally determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities, but rather by relying on the securities’ relationship to other benchmark quoted securities (Level 2).

Impaired loans: The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available for similar loans and collateral underlying such loans. Non-real estate collateral may be valued using an appraisal, net book value per the borrower’s financial statements, or aging reports, adjusted or discounted based on management’s historical knowledge, changes in market conditions from the time of the valuation, and management’s expertise and knowledge of the client and client’s business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted in accordance with the allowance policy.

Other real estate owned: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals which are updated no less frequently than annually. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach with data from comparable properties. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Real estate owned properties are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

(Table amounts in thousands, except share and per share data)

NOTE 8 - FAIR VALUE (continued)

The following table sets forth the Company's financial assets that were accounted for at fair value and are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Fair Value Measurements Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value
September 30, 2020				
Securities:				
Certificates of deposit	$ —	$ 32,724	$ —	$ 32,724
Municipal securities	—	512	—	512
Mortgage-backed securities – residential	—	6,429	—	6,429
Collateralized mortgage obligations – residential	—	2,383	—	2,383
	$ —	$ 42,048	$ —	$ 42,048
December 31, 2019				
Securities:				
Certificates of deposit	$ —	$ 48,666	$ —	$ 48,666
Municipal securities	—	513	—	513
Mortgage-backed securities - residential	—	8,037	—	8,037
Collateralized mortgage obligations – residential	—	2,977	—	2,977
	$ —	$ 60,193	$ —	$ 60,193

The following table sets forth the Company's assets that were measured at fair value on a non-recurring basis:

	Fair Value Measurement Using			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value
September 30, 2020				
Impaired loans - nonresidential real estate	$ —	$ —	$ 268	$ 268

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral–dependent loans, had a carrying amount of $288,000, with a valuation allowance of $20,000 at September 30, 2020. At December 31, 2019 there were no impaired loans that were measured for impairment using the fair value of the collateral for collateral–dependent loans and which had specific valuation allowances. There is an increase in the provision for loan losses of $20,000 for the three and nine months ended September 30, 2020, compared to no specific provision for loan losses for the three and nine months ended September 30, 2019.

At September 30, 2020 and December 31, 2019 there were no OREO properties with valuation allowances.

The following table presents quantitative information, based on certain empirical data with respect to Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at September 30, 2020:

	Fair Value	Valuation Technique(s)	Significant Unobservable Input(s)	Range (Weighted Average)
September 30, 2020				
Impaired loans - nonresidential real estate	$ 268	Sales comparison	Discount applied to valuation	22.0%

(Table amounts in thousands, except share and per share data)

NOTE 8 - FAIR VALUE (continued)

The carrying amount and estimated fair value of financial instruments are as follows:

	Carrying Amount	Fair Value Measurements at September 30, 2020 Using: Level 1	Level 2	Level 3	Total
Financial assets					
Cash and cash equivalents	$ 429,665	$ 13,740	$ 415,925	$ —	$ 429,665
Securities	42,048	—	42,048	—	42,048
Loans receivable, net of allowance for loan losses	1,065,892	—	—	1,073,308	1,073,308
FHLB and FRB stock	7,490	—	—	—	N /A
Accrued interest receivable	4,354	—	158	4,196	4,354
Financial liabilities					
Certificates of deposit	301,351	—	302,791	—	302,791
Borrowings	4,000	—	3,997	—	3,997

	Carrying Amount	Fair Value Measurements at December 31, 2019 Using: Level 1	Level 2	Level 3	Total
Financial assets					
Cash and cash equivalents	$ 190,325	$ 9,785	$ 180,540	$ —	$ 190,325

FHLB and FRB stock	7,490	—	—	—	N /A
Accrued interest receivable	4,563	—	252	4,311	4,563
Financial liabilities					
Certificates of deposit	402,034	—	402,914	—	402,914
Borrowings	61	—	61	—	61

Loans: The exit price observations are obtained from an independent third-party using its proprietary valuation model and methodology and may not reflect actual or prospective market valuations. The valuation is based on the probability of default, loss given default, recovery delay, prepayment, and discount rate assumptions.

While the above estimates are based on management’s judgment of the most appropriate factors, as of the balance sheet date, there is no assurance that the estimated fair values would have been realized if the assets were disposed of or the liabilities settled at that date, since market values may differ depending on the various circumstances. The estimated fair values would also not apply to subsequent dates.

In addition, other assets and liabilities that are not financial instruments, such as premises and equipment, are not included in the above disclosures.

(Table amounts in thousands, except share and per share data)

NOTE 9 – REVENUE FROM CONTRACTS WITH CUSTOMERS

All of the Company's revenue from contracts with customers within the scope of ASC 606 is recognized within noninterest income. The following table presents the Company's sources of noninterest income. Items outside of the scope of the ASC 606 are noted as such.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2020	2019	2020	2019
Deposit service charges and fees	$ 833	$ 983	$ 2,456	$ 2,887
Loan servicing fees (1)	44	99	189	178
Mortgage brokerage and banking fees (1)	44	28	84	77
Gain on sale of equity securities (1)	—	—	—	295
Loss on disposal of other assets	—	—	(2)	(19)
Trust and insurance commissions and annuities income	222	198	728	627
Earnings on bank-owned life insurance (1)	10	37	51	105
Other (1)	111	129	319	374
Total noninterest income	$ 1,264	$ 1,474	$ 3,825	$ 4,524

(1) Not within the scope of ASC 606

A description of the Company's revenue streams accounted for under ASC 606 follows:

Deposit service charges and fees: The Company earns fees from its deposit customers based on specific types of transactions, account maintenance and overdraft services. Transaction-based fees, which include services such as ATM use fees, stop payment charges, statement rendering, and ACH fees, are recognized at the time the transaction is executed as that is the point in time the Company fulfills the customer's request. Account maintenance fees, which relate primarily to monthly maintenance, are earned over the course of a month, representing the period over which the Company satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs. Service charges on deposits are withdrawn from the customer's account balance.

Interchange income: The Company earns interchange fees from debit cardholder transactions conducted through the Visa payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, concurrently with the transaction processing services provided to the cardholder. Interchange income is included in deposit service charges and fees. Interchange income was $ 394,000 and $ 395,000 for the three months ended September 30, 2020 and 2019. Interchange income was $ 1.1 million and $ 1.2 million for the nine months ended September 30, 2020 and 2019.

Trust and insurance commissions and annuities income: The Company earns trust, insurance commissions and annuities income from its contracts with trust customers to manage assets for investment, and/or to transact on their accounts. These fees are primarily earned over time as the Company provides the contracted monthly or quarterly services and are generally assessed based on a tiered scale of the market value of assets under management (AUM) at month-end. Fees that are transaction based, including trade execution services, are recognized at the point in time that the transaction is executed, *i.e.*, the trade date. Other related services provided include fees the Company earns, which are based on a fixed fee schedule, are recognized when the services are rendered.

Gains/losses on sales of OREO and other assets: The Company records a gain or loss from the sale of OREO and other assets when control of the property transfers to the buyer, which generally occurs at the time of an executed deed. When the Company finances the sale of OREO to the buyer, the Company assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Company adjusts the transaction price and related gain (loss) on sale if a significant financing component is present. OREO sales for the three and nine months ended September 30, 2020 and 2019 were not financed by the Bank.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Cautionary Statement Regarding Forward-Looking Information

Forward Looking Statements

This Quarterly Report on Form 10-Q contains, and other periodic and current reports, press releases and other public stockholder communications of BankFinancial Corporation may contain, forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, that involve significant risks and uncertainties. Forward-looking statements may include statements relating to our future plans, strategies and expectations, as well as our future revenues, earnings, losses, financial performance, financial condition, asset quality metrics and future prospects. Forward looking statements are generally identifiable by use of the words "believe," "may," "will," "should," "could," "expect," "estimate," "intend," "anticipate," "preliminary," "project," "plan," or similar expressions. Forward looking statements speak only as of the date made. They are frequently based on assumptions that may or may not materialize, and are subject to numerous uncertainties that could cause actual results to differ materially from those anticipated in the forward looking statements. We intend all forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and are including this statement for the purpose of invoking these safe harbor provisions.

Factors that could cause actual results to differ materially from the results anticipated or projected and which could materially and adversely affect our operating results, financial condition or future prospects include, but are not limited to: (i) less than anticipated loan growth due to intense competition for loans and leases, particularly in terms of pricing and credit underwriting, or a dearth of borrowers who meet our underwriting standards, or the COVID-19 pandemic and the related adverse local and national economic consequences; (ii) the impact of re-pricing and competitors' pricing initiatives on loan and deposit products; (iii) interest rate movements and their impact on the economy, customer behavior and our net interest margin; (iv) adverse economic conditions in general, or specific events such as the COVID-19 pandemic or terrorism, and in the markets in which we lend that could result in increased delinquencies in our loan portfolio or a decline in the value of our investment securities and the collateral for our loans; (v) declines in real estate values that adversely impact the value of our loan collateral, OREO, asset dispositions and the level of borrower equity in their investments; (vi) borrowers that experience legal or financial difficulties that we do not currently foresee; (vii) results of supervisory monitoring or examinations by regulatory authorities, including the possibility that a regulatory authority could, among other things, require us to increase our allowance for loan losses or adversely change our loan classifications, write-down assets, reduce credit concentrations or maintain specific capital levels; (viii) changes, disruptions or illiquidity in national or global financial markets; (ix) the credit risks of lending activities, including risks that could cause changes in the level and direction of loan delinquencies and charge-offs or changes in estimates relating to the computation of our allowance for loan losses; (x) monetary and fiscal policies of the U.S. Government, including policies of the U.S. Treasury and the Federal Reserve Board; (xi) factors affecting our ability to access deposits or cost-effective funding, and the impact of competitors' pricing initiatives on our deposit products; (xii) legislative or regulatory changes, that have an adverse impact on our products, services, operations and operating expenses; (xiii) higher federal deposit insurance premiums; (xiv) higher than expected overhead, infrastructure and compliance costs; (xv) changes in accounting or tax principles, policies or guidelines; (xvi) the effects of any federal government shutdown; and (xvii) privacy and cybersecurity risks, including the risks of business interruption and the compromise of confidential customer information resulting from intrusions.

These risks and uncertainties, together with the Risk Factors and other information set forth in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2019, as well as Part II, Items 1A of our subsequent Quarterly Reports on Form 10-Q, and other filings we make with the SEC, should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Forward looking statements speak only as of the date they are made. We do not undertake any obligation to update any forward-looking statement in the future, or to reflect circumstances and events that occur after the date on which the forward-looking statement was made.

Critical Accounting Policies

Critical accounting policies are defined as those that are reflective of significant judgments and uncertainties, and could potentially result in materially different results under different assumptions and conditions. We believe that the most critical accounting policies upon which our financial condition and results of operation depend, and which involve the most complex subjective decisions or assessments, are included in the discussion entitled "Critical Accounting Policies" in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2019, as filed with the SEC.

Overview

At September 2020, the Company continued to be in a strong financial and operational condition. The Company had a Tier 1 leverage ratio of 10.66% and a Tier 1 risk-based capital ratio of 17.84%. Our ratio of nonperforming loans to total loans was 0.22% and the ratio of nonperforming assets to total assets was 0.15%. The Company's subsidiary, BankFinancial NA, had 28.3% of total assets in cash deposited at the Federal Reserve Bank and other insured depository institutions. We believe the Company continues to be prepared for the economic and social consequences of the COVID-19 global pandemic.

Pandemic Operational Status

Beginning in the third quarter of 2020, we restored walk-in branch service hours for limited periods and modestly expanded drive-in hours for certain branch offices to accommodate customer service needs at peak periods. We implemented enhanced health safety protocols in all branch facilities for which we restored walk-in branch services. As of September 30, 2020, two branch offices remain closed as we consolidated the customer service capabilities of these facilities with another nearby branch location.

Loan Composition & Activity

Our loan portfolio continues to benefit from its inherent diversity of credit exposures and geographic distribution. Consistent with our long-standing asset allocation principles, we have no material exposure to the hospitality (hotels or restaurants/franchises), oil and gas production, or travel/leisure industries. We have no exposure to direct construction lending or leveraged loans. We have limited exposure to residential mortgages and consumer loans. Our principle of lending based on "essential-use" assets and industries, such as affordable multi-family housing, health care and within a broadly-diversified range of large corporations and governments, has so far resulted in a loan portfolio that could prove to be resilient in terms of asset quality performance.

In the third quarter of 2020, total loans declined by $15.9 million (1.5%) compared to June 30, 2020. Commercial loan and lease finance balances increased by $5.0 million (1.3%) as growth in Equipment Finance originations offset reductions in commercial line of credit balances and scheduled principal amortizations in the Equipment Finance portfolio. Total equipment finance originations were $58.9 million in the third quarter of 2020, compared to $18.0 million in the second quarter of 2020, primarily due to substantial growth in government and middle market commercial equipment and software finance transactions. Line of credit usage by healthcare providers remains at historically low levels, as providers continued to receive substantial additional liquidity from Medicare reimbursement advances and other sources, and most line of credit borrowers chose to pay down credit exposures to the maximum extent possible. Multi-family residential mortgage loans decreased by $13.8 million (2.6%) primarily due to prepayment activity related to project sales and external refinance activity. Nonresidential real estate mortgage loans declined by $3.1 million (2.4%) primarily due to scheduled principal amortization.

U.S. Small Business Administration Paycheck Protection Program (PPP)

We originated ten loans for $135,000 pursuant to the U.S. Small Business Administration Paycheck Protection Program ("PPP") in the third quarter of 2020. Due to the uncertainties concerning the PPP, borrower demand for PPP loans declined each month during the second and third quarters of 2020. At September 30, 2020, we had 310 PPP loans with $11.0 million in outstanding principal balance. We focused our PPP loan origination capabilities on new and existing small business deposit customers, resulting in an average loan origination amount of approximately $35,000. On October 8, 2020, the SBA announced that PPP loans of $50,000 or less would be eligible for a streamlined loan forgiveness process. As of September 30, 2020, we had 168 PPP loans for a total of $3.2 million with balances of $50,000 or less eligible for streamlined forgiveness, of which 41 loans totaling $678,000 had completed PPP Loan Forgiveness Applications submitted to the SBA.

In anticipation of further extensions and enhancements to the PPP, we implemented a technology solution to automate the processing of PPP loans. We also implemented a technology solution to automate the processing of requests for forgiveness of PPP loans not forgiven by operation of law. As of September 30, 2020, we submitted 57 completed Loan Forgiveness Applications for a total of $2.4 million to the SBA PPP Loan Forgiveness Portal. As of October 23, 2020, the SBA had processed and paid 16 PPP Loan Forgiveness Applications, totaling approximately $388,000 in principal.

COVID-19 Loan Forbearance Program

Section 4013 of the CARES Act provides that a qualified loan modification is exempt by law from classification as a Troubled Debt Restructuring pursuant to GAAP. In addition, OCC Bulletin 2020-35 provides more limited circumstances in which a loan modification is not subject to classification as a Troubled Debt Restructuring. Pursuant to these new capabilities, we developed several loan forbearance programs in the first half of 2020 to assist borrowers with managing cash flows disrupted due to COVID-19.

Our Apartment and Commercial Real Estate Qualified Limited Forbearance Program permits borrowers who qualify under Section 4013 of the CARES Act to make an election to pay scheduled interest and escrow payments (if applicable) for a four-month period beginning in April, 2020, and pay all deferred principal payments by December 2020. As of September 30, 2020, 104 borrowers with $90.0 million in total outstanding balances executed a Qualified Limited Forbearance Program Agreement. At September 30, 2020, 23 borrowers had paid all deferred amounts owed. The remaining 81 borrowers owe approximately $458,000 in deferred principal payments which are scheduled for payment in full by December 31, 2020.

For small investment property owners with loan balances under $750,000, the borrower could elect to defer the May 2020 loan payment entirely, with all deferred interest amounts due by December, 2020 and all deferred principal amounts due by June 30, 2021. As of September 30, 2020, 40 borrowers with $12.3 million in outstanding principal balances executed to a Small Investment Property Limited Forbearance Program Agreement. At September 30, 2020, ten borrowers had paid all deferred amounts owed. The remaining 30 borrowers owe approximately $139,000 of deferred payments, of which $97,000 is scheduled for payment by December 31, 2020 and $42,000 is scheduled for payment by June 30, 2021.

CARES Act Section 4013 and OCC Bulletin 2020-35 forbearance agreements are available to qualified commercial loan and commercial finance borrowers, and to commercial equipment lessees. As of September 30, 2020, we had no commercial loan borrowers subject to any form of forbearance agreement. As of September 30, 2020, there were 25 commercial equipment lease obligations with $9.2 million in outstanding principal balances subject to a forbearance agreement which extended the maturity and re-amortized the principal over the remaining term with a weighted average maturity of 33 months. As of September 30, 2020, all lessees subject to re-amortization were current on all required payments.

Owner-Occupied Residential Mortgage & Consumer Loans

For residential mortgage and consumer loans, CARES Act Section 4013 or OCC Bulletin 2020-35 forbearance agreements are available to qualified borrowers. As of September 30, 2020, we had ten borrowers with $1.4 million in outstanding principal balances subject to a forbearance agreement with terms consistent with secondary residential mortgage market standards established by Fannie Mae. As of September 30, 2020, there were approximately $11,000 of deferred payments of which $4,000 is scheduled for payment by December 31, 2020 and $7,000 is scheduled for payment by June 30, 2021.

Asset Quality

Our nonperforming loans to total loans ratio was 0.22% as of September 30, 2020. We placed one Chicago nonresidential real estate loan in the amount of $1.6 million on nonaccrual status during the third quarter of 2020, due to our decision to commence receivership proceedings based on the borrower’s unauthorized material alteration of the collateral; however, the borrower expects to repay the loan in full prior to the November, 2020 effective date of the receivership. Past due loan balances, including payments due on any loan or leases subject to a forbearance agreement, continued to remain nominal; however, these trends could change based on the pace of economic recovery from the COVID-19 pandemic and based on any further fiscal stimulus, if any, from the U.S. Government in the future.

Allowance for Loan Losses

Our allowance for loan losses ("ALLL") decreased by $145,000 (1.8%), compared to an increase of $44,000 for the quarter ended June 30, 2020, primarily due to the decline in lessor line of credit balances, partially offset by continued precautionary increases in the loan loss reserve ratios for multi-family residential and nonresidential real estate loans. As of September 30, 2020, the required reserve ratios for multi-family residential real estate loans and nonresidential real estate loans increased by 21.5%, and 58.2%, respectively, compared to December 31, 2019.

If our loan balances increase as business and liquidity conditions normalize for our health care borrowers, and as equipment finance and commercial loan and finance originations return to their previously expected levels, we expect that we will experience additional increases to the ALLL. Additionally, should economic conditions worsen due to the broad impacts of the COVID-19 pandemic, further increases in required reserve ratios for certain loan types may also require an increase in the ALLL.

Deposit Portfolio Composition & Activity

Our deposit portfolio composition consists almost entirely of core transaction accounts, including local retail and business money market deposit accounts, and local retail certificates of deposit accounts. In the third quarter of 2020, total deposits increased by $14.1 million (1.0%), net of a $11.3 million reduction in wholesale deposit balances. Core transaction account balances increased by $53.5 million during the third quarter of 2020 and $218.2 million since December 31, 2019, primarily due to the continuing impacts of multiple COVID-19 U.S. Government fiscal stimulus programs and reductions in personal and business spending by depositors. We also note that the delays enacted for federal and state tax reporting and remittances also deferred seasonal deposit withdrawal activities which typically occur earlier in the calendar year. For the remainder of 2020, we expect greater volatility in deposit balances, as various forms of government stimulus provide additional liquidity to depositors, but in most cases this liquidity may also be consumed to pay current or past due obligations. Given our substantial liquidity, we expect to maintain a moderate competitive posture for interest-bearing deposits, particularly certificates of deposit, with pricing flexibility reserved for our most valuable overall deposit relationships.

Net Interest Income and Noninterest Income

The abrupt decline in interest rates during the first quarter of 2020 not only reduced interest income on floating-rate commercial loans and liquidity assets, but it also reduced competitive pressures and depositor expectations concerning deposit interest rates. Because of the need to maintain higher levels of liquidity and delays in business investment activity due to COVID-19 disruptions, some further compression of our net interest margin is foreseeable through year-end, but a sustained recovery in business conditions should enable us to continue to deploy our expanded asset generation resources and thus reallocate some of our excess liquidity.

The average yield on our loan and lease portfolio for the quarter ended September 30, 2020 was 4.43%, compared to an average loan and lease portfolio yield of 4.57% for the quarter ended June 30, 2020. The average cost of retail and commercial deposits decreased to 0.48% for the quarter ended September 30, 2020, compared to an average cost of 0.63% for the quarter ended June 30, 2020. The average cost of wholesale deposits and borrowings declined to 2.22% for the quarter ended September 30, 2020. Our net interest margin decreased to 2.85% for the quarter ended September 30, 2020, compared to 3.09% for the quarter ended June 30, 2020.

For the third quarter of 2020, noninterest income was $1.3 million, compared to $1.2 million in the second quarter of 2020. Noninterest income improved slightly in the third quarter of 2020 as the impact of “Stay-At-Home” orders on use of card-based payments for retail sales and on commercial mortgage brokerage activity began to recover. Changes in the market return of trust assets caused a slight reduction in wealth management and trust income. Due to the abrupt change in market interest rates in the first quarter, income on our bank-owned life insurance portfolio remained at significantly reduced levels. We expect to see some continued gradual improvement in consumer spending, trust and wealth management income, and commercial real estate brokerage fees as these market-based opportunities commensurate with the reduction of uncertainties in consumer incomes, commercial real estate rental collections and debt/equity market investments return potential.

Noninterest Expense

Current market conditions favor a focus on expense reductions where feasible; however, our Business Plan requires investment in personnel and marketing resources to achieve our growth objectives in our loan and lease portfolios, and noninterest income for Commercial Mortgage Banking and Trust Services. Accordingly, we will seek to leverage cost savings from improved efficiencies in customer service delivery and reduction of legacy card-based transaction assets such as ATM/debit cards and machines to help offset declines in interest income, and preserve our ability to realize our business generation priorities.

Noninterest expense increased to $9.8 million for the quarter ended September 30, 2020 compared to the quarter ended June 30, 2020. Compensation and benefits increased by $230,000, compared to the quarter ended June 30, 2020, including $100,000 of employee severance accruals, $100,000 for branch employee pandemic service recognition payments and $13,000 for additional security related to civil unrest in the Chicago metropolitan area. Occupancy expenses increased by $137,000 due to extensive cleaning activities for branch and corporate facilities. Information technology expenses decreased slightly due to the renegotiation of technology contracts and completion of improvements in our information security and network capacities. Despite increased expenses for health safety and other COVID-19 protections and responses, other expenses remained well-contained, as we curtailed marketing expenses and other discretionary expenses to improve efficiencies.

Capital Management

The decline in the Company’s share price to below tangible book value should create an opportunity to enhance shareholder value through highly accretive share repurchases, absent the imposition of regulatory limitations or the existence of higher priority capital needs. We also intend to continue to pursue acquisition opportunities that meet our established parameters, if executable under current market conditions.

We repurchased 66,000 shares at an average cost of $7.82 during the third quarter of 2020. Our tangible book value increased to $11.63 at September 30, 2020 from $11.58 at June 30, 2020. At September 30, 2020, we had 89,127 shares available for repurchase in our share repurchase program. The current share repurchase authorization will expire on October 31, 2020, unless extended.

SELECTED FINANCIAL DATA

The following summary information is derived from the consolidated financial statements of the Company. For additional information, reference is made to the Consolidated Financial Statements of the Company and related notes included elsewhere in this Quarterly Report.

(1) Ratios annualized.
(2) The net interest rate spread represents the difference between the yield on average interest-earning assets and the cost of average interest-bearing liabilities for the period.
(3) The net interest margin represents net interest income divided by average total interest-earning assets for the period.
(4) The efficiency ratio represents noninterest expense, divided by the sum of net interest income and noninterest income.
(5) Nonperforming assets include nonperforming loans and other real estate owned.

Comparison of Financial Condition at September 30, 2020 and December 31, 2019

Total assets increased $ 116.9 million, or 7.9%, to $1.605 billion at September 30, 2020, from $1.488 billion at December 31, 2019. The increase in total assets was primarily due to an increase in cash and cash equivalents, which was partially offset by a decrease in loans receivable. Cash and cash equivalents increased $ 239.3 million, or 125.8%, to $429.7 million at September 30, 2020, from $190.3 million at December 31, 2019. Loans decreased $102.1 million, or 8.7%, to $1.066 billion at September 30, 2020, from $1.168 billion at December 31, 2019.

Our loan portfolio consists primarily of investment and business loans (multi-family, nonresidential real estate, commercial loans and leases), which together totaled 95.7% of gross loans at September 30, 2020. During the nine months ended September 30, 2020, multi-family loans decreased by $ 40.9 million, or 7.3%; commercial loans and leases decreased by $ 38.7 million, or 9.3%; and nonresidential real estate loans decreased $ 10.2 million, or 7.6%. The decrease in multi-family loans was primarily due to a significant amount of loan prepayments.

Our primary lending area consists of the counties in the State of Illinois where our branch offices are located, and contiguous counties. We derive the most significant portion of our revenues from these geographic areas. We also engage in multi-family mortgage lending activities in carefully selected metropolitan areas outside our primary lending area and engage in certain types of commercial lending and leasing activities on a nationwide basis. At September 30, 2020, $222.8 million, or 42.6%, of our multi-family mortgage loans were in the Metropolitan Statistical Area for Chicago, Illinois; $63.9 million, or 12.2%, were in the Metropolitan Statistical Area for Dallas, Texas; $46.9 million, or 9.0%, were in the Metropolitan Statistical Area for Denver, Colorado; $29.1 million, or 5.6%, were in the Metropolitan Statistical Area for Tampa, Florida; $28.3 million, or 5.4%, were in the Metropolitan Statistical Area for Greenville-Spartanburg, South Carolina; $21.4 million, or 4.1%, were in the Metropolitan Statistical Area for San Antonio, Texas; and $16.4 million, or 3.1%, were in the Metropolitan Statistical Area for Minneapolis, Minnesota. This information reflects the location of the collateral and does not necessarily reflect the location of the borrower.

Total liabilities increased $ 118.9 million, or 9.1%, to $1.433 billion at September 30, 2020, from $1.314 billion at December 31, 2019, primarily due to an increase in total deposits. Total deposits increased $ 117.5 million, or 9.1%, to $1.402 billion at September 30, 2020, from $1.285 billion at December 31, 2019. Noninterest-bearing demand deposits increased $118.2 million, or 56.1%, to $ 328.9 million at September 30, 2020, from $ 210.8 million at December 31, 2019 and interest-bearing NOW accounts increased $43.8 million, or 16.0%, to $ 317.0 million at September 30, 2020, from $ 273.2 million at December 31, 2019. Money market accounts increased $37.6 million, or 15.3%, to $ 283.2 million at September 30, 2020, from $ 245.6 million at December 31, 2019. Savings accounts increased $18.6 million, or 12.1%, to $ 171.8 million at September 30, 2020, from $ 153.2 million at December 31, 2019. Retail certificates of deposit decreased $61.1 million, or 18.1%, to $ 275.9 million at September 30, 2020, from $ 336.9 million at December 31, 2019. Wholesale certificates of deposit decreased $39.6 million, or 60.8%, to $ 25.5 million at September 30, 2020, from $ 65.1 million at December 31, 2019. Core deposits (which consists of savings, money market, noninterest-bearing demand and NOW accounts) represented 78.5% of total deposits at September 30, 2020, compared to 68.7% at December 31, 2019. Borrowings increased $3.9 million in May 2020, as the Bank borrowed $4.0 million from the FHLB at zero percent interest rate for a one year term.

Total stockholders' equity was $172.4 million at September 30, 2020, compared to $174.4 million at December 31, 2019. The decrease in total stockholders' equity was primarily due to our repurchase of 453,836 shares of our common stock during the nine months ended September 30, 2020 at a total cost of $ 4.2 million and our declaration and payment of cash dividends totaling $ 4.5 million during the same period. These reductions in total stockholders' equity were partially offset by the net income of $ 6.7 million that the Company recorded for the nine months ended September 30, 2020.

Operating Results for the Three Months Ended September 30, 2020 and 2019

Net Income. Net income was $1.9 million for the three months ended September 30, 2020, compared to $3.9 million for the three months ended September 30, 2019. Earnings per basic and fully diluted share of common stock were $0.13 for the three months ended September 30, 2020, compared to $0.26 for the three months ended September 30, 2019.

Net Interest Income. Net interest income was $ 11.0 million for the three months ended September 30, 2020, compared to $ 13.2 million for the three months ended September 30, 2019. The decrease in net interest income reflected a $4.1 million, or 24.9%, decrease in interest income, partially offset by a $1.9 million decrease in interest expense.

The decrease in interest income was due in substantial part to a decrease in the average yield on interest-earning assets, which was partially offset by a decrease in the cost of interest-bearing liabilities and a decrease in total average interest-bearing liabilities. The yield on interest-earning assets decreased 137 basis points to 3.24% for the three months ended September 30, 2020, from 4.61% for the three months ended September 30, 2019. The cost of interest-bearing liabilities decreased 68 basis points to 0.55% for the three months ended September 30, 2020, from 1.23% for the same period in 2019. Total average interest-earning assets increased $103.5 million, or 7.2%, to $1.534 billion for the three months ended September 30, 2020, from $1.431 billion for the same period in 2019. Total average interest-bearing liabilities decreased $5.6 million, or 0.5%, to $1.085 billion for the three months ended September 30, 2020, from $1.091 billion for the same period in 2019. Our net interest rate spread decreased by 69 basis points to 2.69% for the three months ended September 30, 2020, from 3.38% for the same period in 2019. Our net interest margin decreased by 82 basis points to 2.85% for the three months ended September 30, 2020, from 3.67% for the same period in 2019.

Average Balance Sheets

The following table sets forth average balance sheets, average yields and costs, and certain other information. No tax-equivalent yield adjustments were made, as the effect of these adjustments would not be material. Average balances are daily average balances. Nonaccrual loans are included in the computation of average balances, but have been reflected in the table as loans carrying a zero yield. The yields set forth below include the effect of deferred fees and expenses and discounts and premiums that are amortized or accreted to interest income or expense.

	For the Three Months Ended September 30,	
	2020	2019

Ratio of interest-earning assets to interest-bearing liabilities	141.40%			131.18%		

(1) Annualized.

(2) Net interest rate spread represents the difference between the yield on average interest-earning assets and the cost of average interest-bearing liabilities.

(3) Net interest-earning assets represents total interest-earning assets less total interest-bearing liabilities.

(4) Net interest margin represents net interest income divided by average total interest-earning assets.

Table of Contents

Provision for Loan Losses

We establish provisions for loan losses, which are charged to operations in order to maintain the allowance for loan losses at a level we consider necessary to absorb probable incurred credit losses in the loan portfolio. In determining the level of the allowance for loan losses, we consider past and current loss experience, evaluations of real estate collateral, current economic conditions, volume and type of lending, adverse situations that may affect a borrower's ability to repay a loan and the levels of nonperforming and other classified loans. The amount of the allowance is based on estimates and the ultimate losses may vary from such estimates as more information becomes available or events change. We assess the allowance for loan losses on a quarterly basis and make provisions for loan losses in order to maintain the allowance.

A loan balance is classified as a loss and charged-off when it is confirmed that there is no readily apparent source of repayment for the portion of the loan that is classified as loss. Confirmation can occur upon the receipt of updated third-party appraisal valuation information indicating that there is a low probability of repayment upon sale of the collateral, the final disposition of collateral where the net proceeds are insufficient to pay the loan balance in full, our failure to obtain possession of certain consumer-loan collateral within certain time limits specified by applicable federal regulations, the conclusion of legal proceedings where the borrower's obligation to repay is legally discharged (such as a Chapter 7 bankruptcy proceeding), or when it appears that further formal collection procedures are not likely to result in net proceeds in excess of the costs to collect.

We recorded a recovery of loan losses of $187,000 for the three months ended September 30, 2020, compared to a recovery of $134,000 for the same period in 2019. The provision for, or recovery of, loan losses is a function of the allowance for loan loss methodology that we use to determine the appropriate level of the allowance for inherent loan losses after net charge-offs have been deducted. The portion of the allowance for loan losses that is attributable to loans collectively evaluated for impairment decreased $165,000, or 2.0%, to $8.0 million at September 30, 2020 from $8.2 million at June 30, 2020. There were $20,000 reserves established for loans individually evaluated for impairment for the three months ended September 30, 2020, compared to no reserves established for loans individually evaluated for impairment for the three months ended September 30, 2019. Net recoveries were $42,000 for the three months ended September 30, 2020, compared to net charge-offs of $87,000 for the three months ended September 30, 2019.

The allowance for loan losses as a percentage of nonperforming loans was 343.08% at September 30, 2020, compared to 457.43% at June 30, 2020 and 901.06 % at December 31, 2019.

Noninterest Income

	Three Months Ended September 30, 2020	Three Months Ended September 30, 2019	Change
	(Dollars in thousands)		
Deposit service charges and fees	$ 833	$ 983	$ (150)

Loan servicing fees	44	99	(55)
Mortgage brokerage and banking fees	44	28	16
Trust and insurance commissions and annuities income	222	198	24
Earnings on bank-owned life insurance	10	37	(27)
Other	111	129	(18)
Total noninterest income	$ 1,264	$ 1,474	$ (210)

Noninterest income decreased $ 210,000, or 14.2%, for the three months ended September 30, 2020 to $ 1.3 million, compared to $ 1.5 million for the same period in 2019. Deposit service charges decreased $150,000, or 15.3%, primarily due to reduced non-sufficient funds (" NSF") returns charges and negative balance fees. Loan servicing fees decreased $55,000 for the three months ended September 30, 2020, compared to the three months ended September 30, 2019. Earnings on bank-owned life insurance decreased by $27,000 to $10,000 for the three months ended September 30, 2020, due to lower interest rates. Other income decreased $18,000, or 14.0%, to $111,000 for the three months ended September 30, 2020, compared to $129,000 for the three months ended September 30, 2019.

Noninterest Expense

	Three Months Ended September 30, 2020	2019	Change
	(Dollars in thousands)		
Compensation and benefits	$ 5,398	$ 5,218	$ 180
Office occupancy and equipment	1,860	1,879	(19)
Advertising and public relations	135	182	(47)
Information technology	781	892	(111)
Professional fees	307	213	94
Supplies, telephone and postage	288	312	(24)
Amortization of intangibles	6	13	(7)
Nonperforming asset management	57	17	40
Operations of other real estate owned, net	23	19	4
FDIC insurance premiums	105	(127)	232
Other	827	891	(64)
Total noninterest expense	$ 9,787	$ 9,509	$ 278

Noninterest expense increased by $278,000, or 2.9%, to $ 9.8 million for the three months ended September 30, 2020, from $ 9.5 million for the same period in 2019. The increase in noninterest expense was due in substantial part to increases in compensation and FDIC insurance expense, partially offset by a decrease in information technology expense. Compensation and benefits expense increased $180,000, or 3.4%, primarily due to increased payroll stemming from special performance compensation related to COVID-19 risk management and customer service activities in addition to severance accruals. Information technology expense decreased $111,000, or 12.4%, to $781,000 for the three months ended September 30, 2020, from $892,000 for the same period in 2019, primarily due to the renegotiation of technology contracts as we continue to upgrade our system and implement cybersecurity prevention. Professional fees increased $94,000, or 44.1%, to $307,000 for the three months ended September 30, 2020, from $213,000 for the same period in 2019, due in substantial part to several consulting projects at the Bank. FDIC insurance premiums increased $232,000, to $105,000 for the three months ended September 30, 2020, compared to a credit of $127,000 for the same period in 2019, due to the receipt of the FDIC's small bank assessment credit in third quarter 2019. Supplies and office occupancy expense included $219,000 in expenses related to civil unrest and COVID-19 for additional cleaning and sanitation costs that were incurred for infection control and prevention.

Income Taxes

We recorded income tax expense of $713,000 for the three months ended September 30, 2020, compared to $1.4 million for the three months ended September 30, 2019. Our combined state and federal effective tax rate for the three months ended September 30, 2020 was 26.8% versus an effective tax rate of 26.5% for the three months ended September 30, 2019.

Operating Results for the Nine Months Ended September 30, 2020 and 2019

Net Income. We had net income of $6.7 million for the nine months ended September 30, 2020, compared to $8.3 million for the nine months ended September 30, 2019. Earnings per basic and fully diluted share of common stock were $0.45 for the nine months ended September 30, 2020, compared to $0.53 per basic and fully diluted share for the same period in 2019.

Net Interest Income. Net interest income was $ 34.3 million for the nine months ended September 30, 2020, compared to $ 39.6 million for the same period in 2019. The $5.3 million decrease in net interest income reflected a $9.3 million, or 18.8%, decrease in interest income, partially offset by a $4.1 million decrease in interest expense.

The decrease in net interest income was primarily attributable to a decrease in the average yield on interest-earning assets, which was partially offset by a decrease in the cost of interest-bearing liabilities and a decrease in total interest-bearing liabilities. The yield on interest-earning assets decreased 90 basis points, or 19.7%, to 3.66% for the nine months ended September 30, 2020, from 4.56% for the nine months ended September 30, 2019. The cost of interest-bearing liabilities decreased 47 basis points to 0.75% for the nine months ended September 30, 2020, from 1.22% for the same period in 2019. Total average interest-earning assets increased $14.6 million, or 1.0%, to $1.470 billion for the nine months ended September 30, 2020, from $1.456 billion for the same period in 2019. Our net interest rate spread decreased 43 basis points to 2.91% for the nine months ended September 30, 2020, from 3.34% for the same period in 2019. Our net interest margin decreased by 51 basis points to 3.12% for the nine months ended September 30, 2020, from 3.63% for the same period in 2019.

Net interest margin (4)			3.12%			3.63%
Ratio of interest-earning assets to interest-bearing liabilities	137.45%			131.57%		

(1) Annualized
(2) Net interest rate spread represents the difference between the yield on average interest-earning assets and the cost of average interest-bearing liabilities.
(3) Net interest-earning assets represents total interest-earning assets less total interest-bearing liabilities.
(4) Net interest margin represents net interest income divided by average total interest-earning assets.

Table of Contents

Provision for Loan Losses

We recorded a provision for loan losses of $326,000 for the nine months ended September 30, 2020, compared to a provision for loan losses of $3.7 million for the same period in 2019. The portion of the allowance for loan losses attributable to loans collectively evaluated for impairment increased $359,000, or 4.7%, to $8.0 million at September 30, 2020, from $7.6 million at December 31, 2019. There were $20,000 reserves established for loans individually evaluated for impairment for the nine months ended September 30, 2020 and no reserves established for loans individually evaluated for impairment for the nine months ended September 30, 2019. Net recoveries were $53,000 for the nine months ended September 30, 2020, compared to net charge-offs of $4.6 million for the same period in 2019. The decreases in net charge-offs and provision for loan losses were primarily due to the fact that our operating results for the nine months ended September 30, 2019 included a $4.4 million loss on the sale of a Chicago commercial credit exposure that experienced an unexpected deterioration in the second quarter of 2019.

The allowance for loan losses as a percentage of nonperforming loans was 343.08% at September 30, 2020, compared to 901.06% at December 31, 2019.

Noninterest Income

	Nine Months Ended September 30,		
	2020	2019	Change
	(Dollars in thousands)		
Deposit service charges and fees	$ 2,456	$ 2,887	$ (431)

Loan servicing fees	189	178	11
Mortgage brokerage and banking fees	84	77	7
Gain on sale of equity securities	—	295	(295)
Loss on disposal of other assets	(2)	(19)	17
Trust and insurance commissions and annuities income	728	627	101
Earnings on bank-owned life insurance	51	105	(54)
Other	319	374	(55)
Total noninterest income	$ 3,825	$ 4,524	$ (699)

Noninterest income decreased by $699,000, or 15.5%, to $3.8 million for the nine months ended September 30, 2020, from $4.5 million for the nine months ended September 30, 2019. Deposit service charges and fees decreased $431,000, or 14.9%, to $2.5 million for the nine months ended September 30, 2020, compared to $2.9 million for the nine months ended September 30, 2019, primarily due to reduced NSF return charges, Visa fees and negative balance fees. We recorded a gain on sale of equity securities for the nine months ended September 30, 2019 of $295,000. Trust and insurance commissions and annuities income increased $101,000, or 16.1%, to $728,000 for the nine months ended September 30, 2020, compared to $627,000 for the nine months ended September 30, 2019. Earnings on bank-owned life insurance decreased $54,000 to $51,000 for the nine months ended September 30, 2020, due to lower interest rates. Other income decreased $55,000, or 14.7%, to $319,000 for the nine months ended September 30, 2020, compared to $374,000 for the nine months ended September 30, 2019.

Noninterest Expense

	Nine Months Ended September 30,		
	2020	**2019**	**Change**
	(Dollars in thousands)		
Compensation and benefits	$ 16,084	$ 16,128	$ (44)
Office occupancy and equipment	5,383	5,348	35
Advertising and public relations	405	488	(83)
Information technology	2,453	2,351	102
Professional fees	831	757	74
Supplies, telephone and postage	875	1,037	(162)
Amortization of intangibles	27	47	(20)
Nonperforming asset management	154	129	25
Operations of other real estate owned, net	13	22	(9)
FDIC insurance premiums	241	127	114
Other	2,198	2,645	(447)
Total noninterest expense	$ 28,664	$ 29,079	$ (415)

Noninterest expense decreased by $415,000, or 1.4%, to $28.7 million for the nine months ended September 30, 2020, from $29.1 million for the same period in 2019. The decrease in noninterest expense is due in substantial part to decreases in compensation and benefits, advertising and public relations and other noninterest expense, offset in part by an increase in information technology expense. Compensation and benefits expense decreased $44,000, or 0.3%, partially due to a decrease in full-time equivalent employees to 210 at September 30, 2020 from 223 at September 31, 2019. Information technology expense increased $102,000, or 4.3%, to $2.5 million for the nine months ended September 30, 2020, compared to $2.4 million for the same period in 2019, primarily due to system upgrades and cybersecurity prevention expenses. FDIC insurance premiums increased $114,000, to $241,000 for the nine months ended September 30, 2020, compared to $127,000 for the same period in 2019, due to the receipt of the FDIC's small bank assessment credit in third quarter 2019. Other expenses decreased $447,000, or 16.9%, to $2.2 million for the nine months ended September 30, 2020, from $2.6 million for the same period in 2019, due in substantial part to the reversal of a $116,000 reserve established for the open letters of credit related to a loan charge-off that was recorded in the second quarter 2019. Supplies and office occupancy expense for the nine months ended September 30, 2020 included $341,000 in expenses related to civil unrest and COVID-19 for additional cleaning and sanitation costs that were incurred for infection control and prevention.

Income Taxes

For the nine months ended September 30, 2020, we recorded $2.4 million of income tax expense, compared to $3.0 million for the nine months ended September 30, 2019. Our effective tax rate for the nine months ended September 30, 2020 was 26.4%, compared to 26.5% for the same period in 2019.

Nonperforming Loans and Assets

We review loans on a regular basis, and generally place loans on nonaccrual status when either principal or interest is 90 days or more past due. In addition, we place loans on nonaccrual status when we do not expect to receive full payment of interest or principal. Interest accrued and unpaid at the time a loan is placed on nonaccrual status is reversed from interest income. Interest payments received on nonaccrual loans are recognized in accordance with our significant accounting policies. Once a loan is placed on nonaccrual status, the borrower must generally demonstrate at least six consecutive months of contractual payment performance before the loan is eligible to return to accrual status. We may have loans classified as 90 days or more delinquent and still accruing. Generally, we do not utilize this category of loan classification unless: (1) the loan is repaid in full shortly after the period end date; (2) the loan is well secured and there are no asserted or pending legal barriers to its collection; or (3) the borrower has remitted all scheduled payments and is otherwise in substantial compliance with the terms of the loan, but the processing of loan payments actually received or the renewal of the loan has not occurred for administrative reasons. At September 30, 2020, we had no loans in this category.

We typically obtain new third–party appraisals or collateral valuations when we place a loan on nonaccrual status, conduct impairment testing or conduct a TDR analysis unless the existing valuation information for the collateral is sufficiently current to comply with the requirements of our Appraisal and Collateral Valuation Policy (“ACV Policy”). We also obtain new third–party appraisals or collateral valuations when the judicial foreclosure process concludes with respect to real estate collateral, and when we otherwise acquire actual or constructive title to real estate collateral. In addition to third–party appraisals, we use updated valuation information based on Multiple Listing Service data, broker opinions of value, actual sales prices of similar assets sold by us and approved sales prices in response to offers to purchase similar assets owned by us to provide interim valuation information for consolidated financial statement and management purposes. Our ACV Policy establishes the maximum useful life of a real estate appraisal at 18 months. Because appraisals and updated valuations utilize historical or "ask–side" data in reaching valuation conclusions, the appraised or updated valuation may or may not reflect the actual sales price that we will receive at the time of sale.

Real estate appraisals may include up to three approaches to value: the sales comparison approach, the income approach (for income-producing property) and the cost approach. Not all appraisals utilize all three approaches. Depending on the nature of the collateral and market conditions, we may emphasize one approach over another in determining the fair value of real estate collateral. Appraisals may also contain different estimates of value based on the level of occupancy or planned future improvements. "As-is" valuations represent an estimate of value based on current market conditions with no changes to the use or condition of the real estate collateral. "As-stabilized" or "as-completed" valuations assume the real estate collateral will be improved to a stated standard or achieve its highest and best use in terms of occupancy. "As-stabilized" or "as-completed" valuations may be subject to a present value adjustment for market conditions or the schedule of improvements.

As part of the asset classification process, we develop an exit strategy for real estate collateral or OREO by assessing overall market conditions, the current use and condition of the asset, and its highest and best use. For most income–producing real estate, we believe that investors value most highly a stable income stream from the asset; consequently, we perform a comparative evaluation to determine whether conducting a sale on an "as–is," "as–stabilized" or "as–completed" basis is most likely to produce the highest net realizable value. If we determine that the "as–stabilized" or "as–completed" basis is appropriate, we then complete the necessary improvements or tenant stabilization tasks, with the applicable time value discount and improvement expenses incorporated into our estimates of the expected costs to sell. As of September 30, 2020, substantially all impaired real estate loan collateral and OREO were valued on an "as–is basis."

Estimates of the net realizable value of real estate collateral also include a deduction for the expected costs to sell the collateral or such other deductions from the cash flows resulting from the operation and liquidation of the asset as are appropriate. For most real estate collateral subject to the judicial foreclosure process, we generally apply a 10.0% deduction to the value of the asset to determine the expected costs to sell the asset. This estimate includes one year of real estate taxes, sales commissions and miscellaneous repair and closing costs. If we receive a purchase offer that requires unbudgeted repairs, or if the expected resolution period for the asset exceeds one year, we then include, on a case-by-case basis, the costs of the additional real estate taxes and repairs and any other material holding costs in the expected costs to sell the collateral. For OREO, we generally apply a 7.0% deduction to determine the expected costs to sell, as expenses for real estate taxes and repairs are expensed when incurred.

Nonperforming Assets Summary

The following table below sets forth the amounts and categories of our nonperforming loans and nonperforming assets.

	September 30, 2020	June 30, 2020	December 31, 2019	Quarter Change	Nine-Month Change
			(Dollars in thousands)		
Nonaccrual loans:					
One-to-four family residential real estate	$ 465	$ 662	$ 512	$ (197)	$ (47)
Nonresidential real estate	1,870	288	288	1,582	1,582
Other commercial leases	—	833	—	(833)	—
	2,335	1,783	800	552	1,535
Loans past due over 90 days, still accruing - commercial leases	—	—	47	—	(47)
Nonperforming loans	2,335	1,783	847	552	1,488
Other real estate owned - One-to-four family residential	110	143	186	(33)	(76)
Total nonperforming assets	$ 2,445	$ 1,926	$ 1,033	$ 519	$ 1,412
Ratios:					
Nonperforming loans to total loans	0.22%	0.16%	0.07%		
Nonperforming assets to total assets	0.15	0.12	0.07		

Nonperforming Assets

Nonperforming assets increased $1.4 million to $2.4 million at September 30, 2020, from $1.0 million at December 31, 2019, due in substantial part to our placing one Chicago nonresidential real estate loan in the amount of $1.6 million on nonaccrual status due to our decision to commence receivership proceedings based on the borrower's unauthorized material alteration of the collateral; however, the borrower expects to repay the loan in full prior to the November 2020 effective date of the receivership. One residential loan with a book balance of $33,000 was transferred from nonaccrual loans to OREO during the nine months ended September 30, 2020. We continue to experience modest quantities of defaults on residential real estate loans principally due either to the borrower's personal financial condition or deteriorated collateral value.

Table of Contents

Liquidity and Capital Resources

Liquidity. The overall objective of our liquidity management is to ensure the availability of sufficient cash funds to meet all financial commitments and to take advantage of investment opportunities. We manage liquidity in order to meet deposit withdrawals on demand or at contractual maturity, to repay borrowings as they mature, and to fund new loans and investments as opportunities arise.

Our primary sources of funds are deposits, principal and interest payments on loans and securities, and, to a lesser extent, wholesale borrowings, the proceeds from maturing securities and short-term investments, the sales of loans and securities and lease payments. The scheduled amortization of loans and securities, as well as proceeds from borrowings, are predictable sources of funds. Other funding sources, however, such as deposit inflows, mortgage prepayments and mortgage loan sales are greatly influenced by market interest rates, economic conditions and competition. We anticipate that we will have sufficient funds available to meet current loan commitments and lines of credit and maturing certificates of deposit that are not renewed or extended. We generally remain fully invested and utilize FHLB advances as an additional source of funds. We had $4.0 million of FHLB advances outstanding at September 30, 2020 and none at December 31, 2019.

The Company is a separate legal entity from BankFinancial, NA. The Company must provide for its own liquidity to pay any dividends to its shareholders and to repurchase shares of its common stock, and for other corporate purposes. The Company's primary source of liquidity is dividend payments it receives from the Bank. The Bank's ability to pay dividends to the Company is subject to regulatory limitations. At September 30, 2020, the Company (on an unconsolidated, stand-alone basis) had liquid assets of $8.0 million. On April 1, 2020, the Company obtained a $5.0 million unsecured line of credit with a correspondent bank. Interest is payable at a rate of Prime rate minus 0.75%. The line of credit will mature on April 1, 2021. The line of credit had no outstanding balance at September 30, 2020.

As of September 30, 2020, we were not aware of any known trends, events or uncertainties that had or were reasonably likely to have a material adverse impact on our liquidity. As of September 30, 2020, we had no other material commitments for capital expenditures.

Capital Management - Bank. The overall objectives of our capital management are to ensure the availability of sufficient capital to support loan, deposit and other asset and liability growth opportunities and to maintain sufficient capital to absorb unforeseen losses or write-downs that are inherent in the business risks associated with the banking industry. We seek to balance the need for higher capital levels to address such unforeseen risks and the goal to achieve an adequate return on the capital invested by our stockholders.

The Bank is subject to regulatory capital requirements administered by the federal banking agencies. The capital adequacy guidelines and prompt corrective action regulations, involve the quantitative measurement of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. The failure to meet minimum capital requirements can result in regulatory actions. The final rules implementing Basel Committee on Banking Supervision's capital guidelines for U.S. banks (Basel III rules) became effective in 2015. The net unrealized gain or loss on available-for-sale securities is not included in computing regulatory capital.

In addition, as a result of the legislation, the federal banking agencies developed a “Community Bank Leverage Ratio” (the ratio of a bank’s tangible equity capital to average total consolidated assets) for financial institutions with assets of less than $10 billion. A “qualifying community bank” that exceeds this ratio will be deemed to be in compliance with all other capital and leverage requirements, including the capital requirements to be considered “well capitalized” under Prompt Corrective Action statutes. The federal banking agencies may consider a financial institution’s risk profile when evaluating whether it qualifies as a community bank for purposes of the capital ratio requirement. The federal banking agencies must set the minimum capital for the new Community Bank Leverage Ratio at not less than 8% and not more than 10%. Beginning in the second quarter 2020 and until the end of the year, a banking organization that has a leverage ratio of 8% or greater and meets certain other criteria may elect to use the Community Bank Leverage Ratio framework; and qualified community banks will have until January 1, 2022, before the Community Bank Leverage Ratio requirement is re-established at greater than 9%. Pursuant to Section 4012 of the CARES Act and related interim final rules, the Community Bank Leverage Ratio will be 8% beginning in the second quarter and for the remainder of calendar year 2020, 8.5% for calendar year 2021, and 9% thereafter. A financial institution can elect to be subject to this new definition, and opt-out of this new definition, at any time. As a qualified community bank, we elected to be subject to this definition beginning the second quarter of 2020. As of September 30, 2020, the Bank's Community Bank Leverage Ratio was 10.13%.

Prompt corrective action regulations provide five classifications: well-capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If only adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required.

Table of Contents

The minimum capital ratios set forth in the Regulatory Capital Plans will be increased and other minimum capital requirements will be established if and as necessary. In accordance with the Regulatory Capital Plans, the Bank will not pursue any acquisition or growth opportunity, declare any dividend or conduct any stock repurchase that would cause the Bank's total risk-based capital ratio and/or its Tier 1 leverage ratio to fall below the established minimum capital levels or the capital levels required for capital adequacy plus the capital conservation buffer (“ CCB”). The minimum CCB is 2.5%.

As of September 30, 2020, the Bank was well-capitalized, with all capital ratios exceeding the well-capitalized requirement. There are no conditions or events that management believes have changed the Bank’s prompt corrective action capitalization category.

The Bank is subject to regulatory restrictions on the amount of dividends it may declare and pay to the Company without prior regulatory approval, and to regulatory notification requirements for dividends that do not require prior regulatory approval.

Actual and required capital amounts and ratios for the Bank were:

	Actual		Required for Capital Adequacy Purposes		To be Well-Capitalized under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
	(Dollars in thousands)					
December 31, 2019						
Total capital (to risk-weighted assets)	$ 170,203	16.38%	$ 83,130	8.00%	$ 103,913	10.00%
Tier 1 (core) capital (to risk-weighted assets)	162,455	15.63	62,348	6.00	83,130	8.00
Common Tier 1 (CET1)	162,455	15.63	46,761	4.50	67,543	6.50
Tier 1 (core) capital (to adjusted average total assets):	162,455	10.89	59,666	4.00	74,583	5.00

Quarterly Cash Dividends. The Company declared cash dividends of $0.30 per share for both of the nine months ended September 30, 2020 and September 30, 2019.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Qualitative Analysis. A significant form of market risk is interest rate risk. Interest rate risk results from timing differences in the maturity or repricing of our assets, liabilities and off balance sheet contracts (*i.e.*, forward loan commitments), the effect of loan prepayments and deposit withdrawals, the difference in the behavior of lending and funding rates arising from the use of different indices and "yield curve risk" arising from changing rate relationships across the spectrum of maturities for constant or variable credit risk investments. In addition to directly affecting net interest income, changes in market interest rates can also affect the amount of new loan originations, the ability of borrowers to repay variable rate loans, the volume of loan prepayments and refinancings, the carrying value of investment securities classified as available-for-sale and the flow and mix of deposits.

The general objective of our interest rate risk management is to determine the appropriate level of risk given our business strategy and then manage that risk in a manner that is consistent with our policy to reduce, to the extent possible, the exposure of our net interest income to changes in market interest rates. Our Asset/Liability Management Committee ("ALCO"), which consists of certain members of senior management, evaluates the interest rate risk inherent in certain assets and liabilities, our operating environment and capital and liquidity requirements, and modifies our lending, investing and deposit gathering strategies accordingly. The Board of Directors then reviews the ALCO's activities and strategies, the effect of those strategies on our net interest margin, and the effect that changes in market interest rates would have on the economic value of our loan and securities portfolios as well as the intrinsic value of our deposits and borrowings, and reports to the full Board of Directors.

Table of Contents

We actively evaluate interest rate risk in connection with our lending, investing and deposit activities. In an effort to better manage interest rate risk, we have de-emphasized the origination of residential mortgage loans, and have increased our emphasis on the origination of nonresidential real estate loans, multi-family mortgage loans, commercial loans and commercial leases. In addition, depending on market interest rates and our capital and liquidity position, we generally sell all or a portion of our longer-term, fixed-rate residential loans, usually on a servicing-retained basis. Further, we primarily invest in shorter-duration securities, which generally have lower yields compared to longer-term investments. Shortening the average maturity of our interest-earning assets by increasing our investments in shorter-term loans and securities, as well as loans with variable rates of interest, helps to better match the maturities and interest rates of our assets and liabilities, thereby reducing the exposure of our net interest income to changes in market interest rates. Finally, we have classified all of our investment portfolio as available-for-sale so as to provide flexibility in liquidity management.

We utilize a combination of analyses to monitor the Bank's exposure to changes in interest rates. The economic value of equity analysis is a model that estimates the change in net portfolio value ("NPV") over a range of interest rate scenarios. NPV is the discounted present value of expected cash flows from assets, liabilities and off-balance-sheet contracts. In calculating changes in NPV, we assume estimated loan prepayment rates, reinvestment rates and deposit decay rates that seem most likely based on historical experience during prior interest rate changes.

Our net interest income analysis utilizes the data derived from the dynamic GAP analysis, described below, and applies several additional elements, including actual interest rate indices and margins, contractual limitations such as interest rate floors and caps and the U.S. Treasury yield curve as of the balance sheet date. In addition, we apply consistent parallel yield curve shifts (in both directions) to determine possible changes in net interest income if the theoretical yield curve shifts occurred instantaneously. Net interest income analysis also adjusts the dynamic GAP repricing analysis based on changes in prepayment rates resulting from the parallel yield curve shifts.

Our dynamic GAP analysis determines the relative balance between the repricing of assets and liabilities over multiple periods of time (ranging from overnight to five years). Dynamic GAP analysis includes expected cash flows from loans and mortgage-backed securities, applying prepayment rates based on the differential between the current interest rate and the market interest rate for each loan and security type. This analysis identifies mismatches in the timing of asset and liability repricing but does not necessarily provide an accurate indicator of interest rate risk because it omits the factors incorporated into the net interest income analysis.

Quantitative Analysis. The following table sets forth, as of September 30, 2020, the estimated changes in the Bank's NPV and net interest income that would result from the designated instantaneous parallel shift in the U.S. Treasury yield curve. Computations of prospective effects of hypothetical interest rate changes are based on numerous assumptions including relative levels of market interest rates, loan prepayments and deposit decay, and should not be relied upon as indicative of actual results.

	Estimated Increase (Decrease) in NPV		Increase (Decrease) in Estimated Net Interest Income	
Change in Interest Rates (basis points)	**Amount**	**Percent**	**Amount**	**Percent**
	(Dollars in thousands)			
+400	$ 8,190	4.56%	$ 8,832	20.34%
+300	8,264	4.60	6,816	15.70
+200	4,282	2.39	4,536	10.45
+100	99	0.06	2,184	5.03
0				
-25	(4,448)	(2.48)	(328)	(0.76)

The table set forth above indicates that at September 30, 2020, in the event of an immediate 25 basis point decrease in interest rates, the Bank would be expected to experience a 2.48% decrease in NPV and a $328,000 decrease in net interest income. In the event of an immediate 200 basis point increase in interest rates, the Bank would be expected to experience a 2.39% increase in NPV and a $4.5 million increase in net interest income. This data does not reflect any actions that we may undertake in response to changes in interest rates, such as changes in rates paid on certain deposit accounts based on local competitive factors, which could reduce the actual impact on NPV and net interest income, if any.

Certain shortcomings are inherent in the methodology used in the above interest rate risk measurements. Modeling changes in NPV and net interest income requires that we make certain assumptions that may or may not reflect the manner in which actual yields and costs respond to changes in market interest rates. The NPV and net interest income table presented above assumes that the composition of our interest-rate-sensitive assets and liabilities existing at the beginning of a period remains constant over the period being measured and, accordingly, the data does not reflect any actions that we may undertake in response to changes in interest rates, such as changes in rates paid on certain deposit accounts based on local competitive factors. The table also assumes that a particular change in interest rates is reflected uniformly across the yield curve regardless of the duration to maturity or the repricing characteristics of specific assets and liabilities. Because of the shortcomings mentioned above, management considers many additional factors such as projected changes in loan and deposit balances and various projected forward interest rate scenarios when evaluating strategies for managing interest rate risk. Accordingly, although the NPV and net interest income table provides an indication of our sensitivity to interest rate changes at a particular point in time, such measurements are not intended to and do not provide a precise forecast of the effect of changes in market interest rates on our net interest income and will differ from actual results.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of the Company's management, including the Chairman, Chief Executive Officer and President and the Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934, as amended) as of September 30, 2020. Based on that evaluation, the Company's management, including the Chairman, Chief Executive Officer, and President and the Executive Vice President and Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective.

During the quarter ended September 30, 2020, there have been no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company and its subsidiaries are subject to various legal actions arising in the normal course of business. In the opinion of management, based on currently available information, the resolution of these legal actions is not expected to have a material adverse effect on the Company's financial condition or results of operations

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously disclosed in the Company's filings with the Securities and Exchange Commission.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

(a) **Unregistered Sale of Equity Securities**. Not applicable.

(b) **Use of Proceeds**. Not applicable.

(c) **Repurchases of Equity Securities**.

The following table sets forth information in connection with purchases of our common stock made by, or, on behalf of us, during the third quarter of 2020. As of September 30, 2020, the Company had repurchased 5,721,628 shares of its common stock out of the 5,810,755 shares of common stock authorized under the current share repurchase authorization approved on March 30, 2015. Pursuant to the share repurchase authorization, as of September 30, 2020, there are 89,127 shares of common stock authorized for repurchase through October 31, 2020.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased under the Plans or Programs
July 1, 2020 through July 31, 2020	53,500	$ 7.91	53,500	101,627
August 1, 2020 through August 31, 2020	7,500	7.51	7,500	94,127
September 1, 2020 through September 30, 2020	5,000	7.39	5,000	89,127
	66,000		66,000

Exhibit 31.1

Certification of Chief Executive Officer
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, F. Morgan Gasior, certify that:

1) I have reviewed this quarterly report on Form 10-Q of BankFinancial Corporation;

2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

   b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

   c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

   d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

   a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

   b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
